

Dear brothers and sisters, on behalf of the English Section I send greetings and best wishes for a truly inspiring event. It is important that Theosophists work together to bring about a greater awareness and enlightenment in this troubled world. And so the work that you do benefits all.

Although I cannot be with you in person my thoughts are with you at this special time.

Blessings

Eric McGough, President English TS

Dear participants,

Perhaps there is no more important undertaking than awakening compassion for we know from our Theosophical studies that "Compassion is no attribute. It is the LAW of laws -eternal harmony, Alaya's SELF;..".

When we listen to the news and read history it appears that the conflicts and differences that arise between organizations with which human beings identify themselves with such as nations, religions etc. are as difficult to overcome as those of a more personal nature.

To overcome both them requires awakening compassion through identifying with the All, Alaya in the Arya tradition, the source of compassion and de-identifying with anything which separates us from each other. I wish you every success with the convention.

Fraternal greetings,

Roger Price, Belgium.

Dear Friends, Brothers and Sisters, dear Theosophists from all traditions, now together at the ITC in New York.

We are very sorry that it is not possible for the Board of the Dutch Section of the Theosophical Society Adyar to join you at the 15th annual meeting of the International Theosophy Conference in the city where it all started: New York!
